

DTM CLP2200e Inkjet color label printer

DTM CLP2200e Inkjet color label printer

CLP2200e series - Color label printer for rolls

The DTM CLP2200e series are professional inkjet color label printers for roll media, designed for businesses that want to produce high-quality full-color labels on demand. Thanks to its combination of large ink capacity and flexible ink options, this printer is ideal for both production labels and premium branding applications.

Flexible printing: Choice between dye and pigment inks

The CLP2200e offers maximum flexibility thanks to its replaceable printhead and separate ink cartridges. You can easily switch between two ink types:

- **Dye inks:** delivers vibrant colors and true photo quality, ideal for retail, marketing labels, and product branding.
- **Pigment inks:** provide higher resistance to water, UV light, and abrasion, making them perfect for industrial and logistics applications.

Switching between both systems is simple: just replace the cartridges and printhead without complex configuration.

Features of the CLP2200e

- **Large ink capacity** - 78 ml black / 26 ml per color
- **Lower cost per label**
- **Print speed up to 135 mm per second**
- **Print width up to 210 mm**
- **High print quality** - up to 2400 dpi
- **Compact and maintenance-friendly design**

Peel-off function for efficient application (optional)

Depending on the selected version, the CLP2200e can be equipped with a peel-off function. The label is automatically separated from the liner, allowing operators to apply labels immediately. This significantly speeds up manual application processes and increases productivity.

DTM CLP2200e Inkjet color label printer

DTM CLP2200e Inkjet color label printer

Specifications

Print Method	Thermal inkjet with dye or pigment ink
Print Resolution	Up to 1200 x 2400 dpi
Print Speed	Up to 7,92 m/min. (132 mm/sec.)
Printhead	User replaceable, multi-use printhead
Inks	Individual cartridges for cyan, magenta, yellow and black
Color Matching	Standard Color Matching
Print Width	20 mm - 210 mm (0,78" - 8,25")
Media Width	30 mm - 212 mm (1,18" - 8,375")
Print Length	Max. 1219,30 mm (48")
Media Types	Roll-fed pressure-sensitive labels, roll-fed tags, fan-fold labels or tags
Media sensor	Moveable see-through sensor for die-cut labels; reflective sensor for labels and tags with black mark (bottom); can use continuous and pre-printed labels and tags
Supply Roll	250 mm (9.84") maximum outer diameter on 76 mm (3") core
Ink Level Warning	Calculates actual number of prints remaining based upon ink usage of graphics being printed
Operating Systems	Windows 7 and higher
Interface	USB 2.0, bekabeld Ethernet, 24 V PLC
Electrical power	32 V DC
Power supply	100 V – 240 V AC (50/60 Hz), 50 W
Certificates	CE, RoHs
Weight	15 kg
Dimensions (W x H x D)	486 mm x 207 mm x 330 mm
