

OKI Plavi ES9542R Label press CMYK + White

Discover the Oki ES9542R:
affordable, flexible and top quality

Have you been thinking about producing labels digitally, but until now didn't find a solution that was both affordable and flexible without sacrificing quality? With the Oki ES9542R, you can finally make that step possible!

Why choose the Oki ES9542R?

CMYK + white

This label press creates brilliant full-color prints of the highest quality. The addition of white as an additional color offers unprecedented possibilities:

- Prints without difficulty on transparent or colored materials.
- Create a perfect opaque white for eye-catching designs and maximum impact.

Dry-toner technology

The Oki ES9542R uses innovative dry-toner technology with numerous benefits:

- **Sustainability:** Waterproof labels resistant to UV rays, alcohol and grease.
- **Flexibility:** Suitable for a variety of materials, even uncoated or textured surfaces.
- **Applications:** Ideal for various industries such as food, chemical and luxury segments (e.g., wine and spirits labels).

Compact but powerful

This compact digital label press offers the features of larger production machines:

- **Pneumatic unwinder and rewinder** With an outer diameter of 500 mm.
- **Ultrasonic voltage regulation** For stable production.
- **High productivity:** Prints up to 6.2 m/min with a web width of 330 mm.

Advanced color management

The Oki ES9542R adapts to your workflow:

- Use the simple Windows driver for standard tasks.
- For professional color management, you can rely on optional RIPS from Fiery and DevStudio, which are fully compatible.

OKI Plavi ES9542R Label press CMYK + White

Complete solution

In the world of digital printing, custom finishing is essential. For smaller productions, using traditional die-cutting plates is often not cost-effective. That's why we offer a complete, fully automated digital finishing solution, perfect for starting a full label production.

With our extensive range of finishers, you are assured of maximum flexibility:

- Roll-to-roll finishing
- Labels production from roll to sheet
- Full-cut sticker production
- Lamination for extra protection

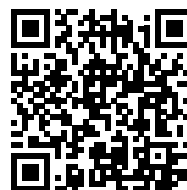

Specifications

• Print speed	Max 6.2 m/min and 5.0 m/min, depending on paper type
• Print method	Digital 5 LED color electrographic printing method (Laser)
• Input/Output max. rol diameter	500 mm
• Media width	330 mm
• Media thickness:	0.07 mm - 0.25 mm
• Supported material types	Coated Paper, Uncoated Paper, PP, PET
• Maximum print length (maximum label length):	Max. 1.320 mm
• Printer weight	116.5 kg
• Dimensions printer:	699 x 625 x 640 mm
• Weight	501.5 kg
• Overall dimensions	725 mm (740 with printer) x 2080 x 1237 mm
• Roll core diameter	Pneumatic 76 mm
• Guide system	Unwinder en rewinder
