

Ideal compact and affordable digital label & packaging press

Rollio XPRESS is the most economical digital press at 7.25 meters per minute speed, using the most advanced LED toner printer engine. It occupies 1.36 sqm footprint only and operation cost is lower than competitors thanks to economic toners.

Amazingly wide range of substrates to print

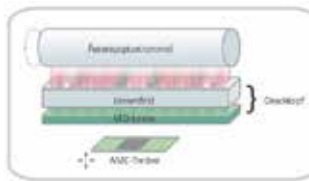

Rollio XPRESS has the possibility to print on a variety of substrates including thin and thick papers (30g-350g), thermopapers, fabrics, aluminiumfoils and diverse films (PVC, PET, PP, BOPP,...), very special medias like TYVEK and FAPER, thanks to low temp. fusing system, special toner, media coolers, anti-static brush and duplex ionizers.

Valloy Rollio XPRESS

Intuitive s/w

Simultaneous processing of several orders. Advanced features like color control and calculation of costs. Option for professional rip, ICC profiler and variable data available.

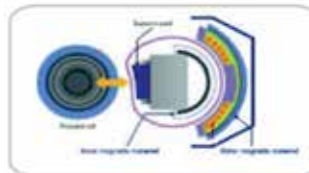

1200 x 2400 DPI

The best quality in LED toner systems by applying the most advanced S-LED and DELCIS technologies onto each of 14.592

Perfect Quality

The special IRecT technology corrects a imprecise print image alignment with highest precision and avoids quality problems in printing.

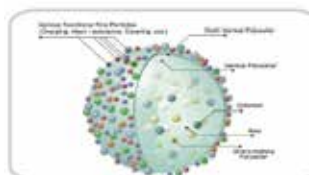

IH-Fuser Technology

Thanks to this new highly efficient fusing technology, it operates at low temperature without need of preheating.

Wide range of media

XPRESS can also print on heat sensitive materials like Thermo-papers, PE, PVC, PP, TYVEK and on static sensitive materials like gold paper and silver film.

EA eco-toner

Special toner containing low-temp. sharp-melting polyester and wax for photo-quality glossy output in strong bonding power.

Compact size

Attractive priced label printer. Ideal for small and medium orders. Small foot-print and therefore also suitable for office environments.

Film printing

XPRESS can print on thin BOPP films, alumi-nium deposited pouches or thin glassine papers for bread wrapping without wrinkles.

Media cooling system

Anti static HV ionizer

Intuitive GUI touchscreen

Web guide system (Option)

Easy maintenance printer engine

Pneumatic shafts, electric auto-tension

Specifications

Printing speed: up to 7.26 m/min.

Printing technology: 4 color (CMYK) LED technology

Print processor: 933 MHz, 2GB, RAM 2G, HDD 40G

Pre-heating time: less than 28 seconds

Interface: TCP/IP

Label width range: Min. 210 mm, Max. 320 mm

Print width: Max. 304 mm

Print label length: Max. 1.200 mm to repeat

Media type: 50 - 300 Micron

* Paper: common types of paper, Thermopapers

* Film: PET (white, clear, silver/gold), PVC, PP, PE, PA

Print resolution: 1200 x 2400 dpi

Toner capacity:

CMY - 25K (A4 pages, 5% coverage)

K - 26K (A4 pages, 5% coverage)

Drum capacity: 100K

Size (H x W x D): 1.400 x 850 x 1.00 mm

Weight: 423 kg

Operating environment: Temperature 20°C - 24°C

Humidity 45 - 55%

Power supply: 110 - 127 V AC, 50 - 60 Hz 2800 WATTS

Eye-mark sensor for pre-printed or cut medias

Unwinder & Rewinder: Max. roll m. diameter 450 mm

Weight of roll media: Max. 47.2 kg

* Monthly duty cycle: 20.000 m²

* Automatic pneumatic expandable mandrels

* Media connecting table for easy roll change

* Media preprocessing by in-built ionizer

* Media cooling system / air cooling system

* Webguide system in option

* Electric tension control by magnetic powder brake

* Media residual of rewinder detection

* Antistatic brush

* Variable data printing (Option)
